This fund is a UCITS scheme and a standard variable net asset value (VNAV) money market fund (MMF). The MMF is not a guaranteed investment, nor does it receive external support to guarantee its liquidity. Unlike bank deposits, investment in MMFs can fluctuate and investors' capital is at risk. Credit ratings are internal and assigned by Keyridge Asset Management. Ratings will generally be in line with the major external rating agencies and should not be higher than the highest of these. Keyridge Asset Management will assign ratings to bonds that do not have an external rating. The comparator benchmark assists investors with evaluating the fund's performance against overnight deposit returns. This benchmark has been chosen as it is believed to be appropriate given the fund's investment objective and policy.
